AMERICANS FOR PROSPERITY

Help Stop EPA Overreach

-Unelected Bureaucrats at the EPA are Threatening to Regulate Our Entire Way of Life-

The EPA is asking for public comments on its intention to regulate greenhouse gas emissions under the Clean Air Act, something the Act was never designed to do. After the Senate rejected a plan to regulate greenhouse gases, the EPA decided to go ahead and do it anyway. The extent of their plan is truly terrifying. If this proposal becomes law, 33 programs within the EPA would be empowered to:

- **Impose Grass Mileage Standards for Home Lawnmowers**
- Put Speed Limiters on the Commercial Trucking Fleet
- List Large Single Family Homes as Carbon-Polluters
- Require Carbon Permits for Retail, Restaurant, Hotel and School Construction

We need your help to tell the EPA this is unacceptable. Environmentalists will be stuffing the comment box with their opinion; we need you to make your voice heard. Please include your public comments below.

Name: Jim Karlock Date: 27 OCT 08

Address: 3311 NE 35th

City: Portland State: OR Zip: 97212

I Oppose the Advanced Notice of Proposed Rulemaking for regulating greenhouse gases under the Clean Air Act. Consider these comments as a filing in Docket ID # EPA-HQ-OAR-2008-0318. A copy of these comments will also be sent to both of my Senators and Representative. The outrageous overreach of this rogue agency must stop.
