OST-2005-22114-6

To. Whom it may Concern:

I think Knox County should stay on Eastern time. It has been on Eastern time for a long time and seems to work just fine for everyone, why change it? I think the citizens of Indiana are satisfied with the way it is now.

Also I don't see any need for Daylight Saving Time. If you want off work one hour earlier, go to work one hour earlier.

Remember there is an election coming up.
