I would like to voice my feelings on the time issue.

I am a small business owner.
I would prefer Central time zone. I do business in St Louis, Chicago, Memphis mainly. They are on Central time. In the winter I have to wait till 9 oclock to call them. In the evening you eat dinner at 6:30 to 7:00 P.M. due to working mostly on ILL. time. I feel it only makes good sense to go on Central time, since we are in Central Time Zone

Also Toyota works on Central time.

Sincerly
