NHTSA-97-2724-569

Mr. Louis Somers
3931 Prairie
Berkley, MI. 48072-3151

Feb 21/97

To the former heads of the highway safety agency. 74-D14-N107-565

This letter is for letting you know when we purchased our 97 Buick Le Sabre that we did not want air Bags that Kill + also keep driver under nervous tension while driving a automobile. We wanted to get the air bags disconnected but do to your one sided ness are being told we cannot. The decision should be ours + not dictated by your decision. 2p.

My wife is short + I am not that tall but hope you will let us have our air bags disconnected in stead of looking down the barrel of a loaded gun.

Seat belts should be mandatory But air bags should be our (choice). Don't take our freedom of choice away use more common sense (over)

CPA 215901

If air bags are to be disconnected let it be done by a certified dealer so it is done right + safe not by ourself. Thanks to President Clinton. Please let us make up our own choice of freedom not somebody that did not use comm sense in the first place. Quit warring about your Ego for High teck safty that Kills. Any thing good does not Kill.

We also paid for these unsafe air Bags + should have our choice respected when we purchase a new auto.

Sincerely
Mr Louis R Somers
Mrs Donna Somers

(I hope we still have the right to Express our american Opinion.)
