OSHA
DOCKET OFFICER
DATE MAY 17
TIME

Gentlemen:

I urge you to act as quickly as possible to prohibit smoking in all workplaces with no exceptions. I also think that smoking should be prohibited in all public places, including hospitals, bus and railroad stations, airports, buses, trains, airplanes, restaurants, theatres, public buildings, schools, etc. Nobody should have to breath another persons smoke-filled air. The young especially, should be protected. It is rediculous that the tobacco companies should continue to say that smoking does no harm.

Yours very truly,

Stanley L. Jones
