Re: Docket # APHIS-2006-0084

Dear Sir or Madam:

I, Mary Fisher, am writing to object to the approval of the above referenced petition, APHIS-2006-0084, to allow commercial growing and marketing of the first genetically engineered (GE) plum trees.

This is outrageous that this kind of stuff even gets to this point of development. What are we doing to our food???? Do we wonder why cancer is so prevalent in our society and people are getting sick? Stop this now, before it kills us all.

Sincerely,

  
Mary Fisher
