Dear EPA Administrator Johnson,

Don't wait for anyone or any particular body to set standards so that we can follow suit. Let's be leaders and do something NOW. This issue is not about the winds of change that come and go; this is an issue of permanance. I drive a car using biodiesel. I think about reducing car usage in my family for business and pleasure. I am willing to make sacrifices. There are some no-brainer solutions and some difficult, complex solutions. Let' do them all!!! I beg you to help California get cleaner, more intelligent cars on the road.

Thank you,

Jill Duran
