General Comment: Please don't make it impossible for me to get black powder. I am a lady cowboy action shooter and I go through several cases a year as I compete a lot. I order a case at a time and it comes UPS Ground, with all hazmat labels, adult signature needed for delivery. The shipping restrictions proposed would no longer allow for this. I can't order a truckload -- how is one person supposed to be able to afford and safely store a truckload?

The restrictions/fees/inspections/regulations compared to the small volume of sales have caused local gun shops to only stock subs, not real BP. I have literally been to every gun shop in the state and nobody stocks what I shoot. I have to order and have it shipped to me.

Real BP shooters are a small community - BPCR, the re-inactors and cowboy shooters. Everybody else uses the subs but we like the old-fashioned ways. Please continue to allow small shipments of black powder.
