Ladies and Gentlemen,
Please support the
proposed speed restriction
for tractor trailers included
in Docket # 26851.

I spent thirty two
years in one of those
trucks and drove coast to
coast more times than I care
to remember.

Most drivers ignore speed
laws of any kind.

This is an electronic age.
Control these vehicles by such
means is easy to do and
will save millions of gallons
of fuel to boot.

Thank you
Pat Mayord
