

I wish the gov. would leave us U.S. tax payers alone! We are not the problem, you are! You let those people in the U.S. and give them the same or more rights than we have then when something like on 9-11 happens we have to pay by giving up our freedom! I am a private pilot and love to fly, please don't take that love away from me! This proposed rule isn't going to do anything but cause econmical and operational impacts on pilots and aviation businesses! No general aviation aircraft has ever been used in a terrorist attack! Thanks Gary Mummey
