

I find it silly for FAA to propose making Wash D.C. special airspace permanent. Absolutely 'chicken little' by FAA to think of such nonsense and to propose criminal fines and other 'serious penalties' for anyone who accidentally flies into ADIZ airspace.

First, FAA ACT is understaffed, undermanned to handle General Aviation traffic wanting to transit thru and around this airspace. An to consider criminal penalties and such is arbitrary, capricious, and obtuse.

Why doesn't FAA make ALL USA airspace permanent ADIZ? and protect all americans besides the Federal Gov't workers in D.C. instead?

I, object to such capricious actions by FAA, and demand full retraction of such NPRM from FAA Docket
