Joanne Petrie,

OST-99-5843-24

My wife and I would very much like to see Wayne County, KY change from the Central time zone to the Eastern time zone. By changing to the Eastern time zone, Wayne County would then be in the same time zone as Pulaski County, KY. This would be much more convenient for us, since we spend an equal amount of time in both counties.

We thank you for your consideration of this matter.

Sincerely,

Mrs. & Mr. Doug Wolke 7/1/99
