Comments:

How do I tell the Govt. and airlines, etc. that I do NOT want to pay more for tickets to resolve the delays and cancelations? Will you please tell them for me? They should NOT raise prices. They could offer more flights in night and even lower the rates to encourage flyers to use them. They can build more airports and enlarge current ones. It is NOT fair to raise prices and try to keep people with less money from flying and from flying during the times they need and want to. Thank you.
