# Northwest Airlines, Inc

January 18, 2001

United States of America  
Department of transportation  
Federal Aviation Administration  
Washington, DC 20591

In the matter of the petition of  
Northwest Airlines, Inc  
For an exemption from FAR 121.709(b)(3)

Public Docket #FAA-2000-868. (Previously No. 28225) - FAA Exemption #6575

NWA requests an extension to the current exemption held on electronic signatures.

This current exemption will expire on February 28, 2001. In addition, the conditions under the original exemption remain the same. This extension, if granted, would allow Northwest to continue to use electronic signatures generated by its SCEPTRE electronic recordkeeping system instead of physical signature to satisfy the airworthiness release or log entry signature requirements of FAR 121.709(b)(3).

If there are any questions or concerns pertaining to this extension request, please contact Chae Shin at 612-726-3209 or [crshin@nwa.com](mailto:crshin@nwa.com).

Sincerely,

Chae R Shin  
Manager, Airworthiness and Technical Records
