To Whom it May Concern:

I am writing about the sweeping regulations that OSHA has proposed. I think you have gone too far with this.

I have been in business for 5 years. I don't need any government telling me to do more regarding smoking.

If there is any set of government regulations that is more unfair and intrusive, I hope OSHA never discovers it. This is not a smoking issue; it's about my rights in my own place of business.

I just don't think it's right.

Thank you,

Linda Buehlmeyer
