Dear Sir or Madam:

No one should have the authority to tell me what I can and cannot do in my own home! Certainly a government agency that is not even dependant on my vote should not have this power!

A ban on smoking in all indoor public places would be discrimination at the least, and communistic at worst. OSHA should not be involved in this despicable attempt to rob us of our rights.

We Americans are able to make decisions for ourselves. You government officials have no right to try to change my lifestyle!

Sincerely

P.S. There's OSHA - Then there's H.R. 3434 - California Congressman Henry Waxman's Subcommittee - Who do you people think you are? God ??? Well my God is watching over me and I don't need any so called God's telling me what I can or can't do - This is supposed to be a free country.

P.S. you are all Out of Touch Bureaucrats
So why don't you just back off, and
let the smokers and nonsmokers
work together toward a mutual goal
of appropriate accommodation.

P.S. It will be a very cold
day in Hell when OSHA
or any government officials think
they can come in my home and
tell me I can't smoke.

P.S. you Federal Government people. I have no respect for any of you what so ever you want to impose a heavy hand on personal decisions. And it looks like communism in this wonderful free America is trying to take hold. And I wouldn't be a bit surprised if you all are communists and trying to rule everyone's lives. Well let me tell you - you will never rule mine
