In re: Smoking Bans

Gentlemen/Ladies:

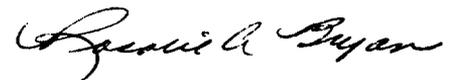

Our society has become a "repressed society". We have become choked with laws and rules governing everything we do; people and organizations band together to oppose what was once accepted behavior and trump up reasons for whatever it is they oppose regardless of whether their reasons have a reliable basis or not.

My concern at this time is the smoking ban that is being proposed by government (OSHA)...a no-smoking rule in virtually all indoor places where anyone works-perhaps even reaching into our own homes. There must be a better way to improve Occupational Safety and Health! Better salaries, wages and fringe benefits would be a good place to start, particularly in the southern part of the United States.

Repression does not promote good economics; people do not work well under the added stress of imposed rules and regulations that accomplish nothing.

I am against the smoking ban. I do not support a smoking ban.

Sincerely yours,

Rosalie A. Bryan
