Dear OSHA:

I was recently made aware of the fact that OSHA is considering a proposal which would ban smoking in the workplace.

Having been in business for over five years, I find this proposal unacceptable. I accommodate both nonsmokers and smokers, and I don't have any problems. There are countless businesses which allow smoking and would be forced into bankruptcy should this regulation pass.

I am a full believer in freedom of choice and I am against the government attempting to run my business. Vote NO on this regulation and allow me to run my business.

Sincerely yours,

Ellen Hayes
