OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Avenue, NW
Washington, DC 20210

To whom it may concern:

I am against the proposal to ban smoking in all workplaces nationwide. You ought to stick to regulations pertaining to the running of the country, not the people and what they wish to do with things that are not illegal. If it is against the law, the legislation decides, and this is not a true vote on what people would like. I don't think the government should have any involvement in issues that affect smokers. Stick to legislation on the states and other issues that are more necessary.

Sincerely, *Pelle W. Lindqvist*
