

August 5, 1994

Mr. Aubin D. Monday  
24934 Walnut Street  
APT 104  
Newhall, CA 91321

OSHA Docket  
Docket No. H-122  
Room N-2625  
200 Constitution Avenue, NW  
Washington, DC 20210

To whom it may concern:

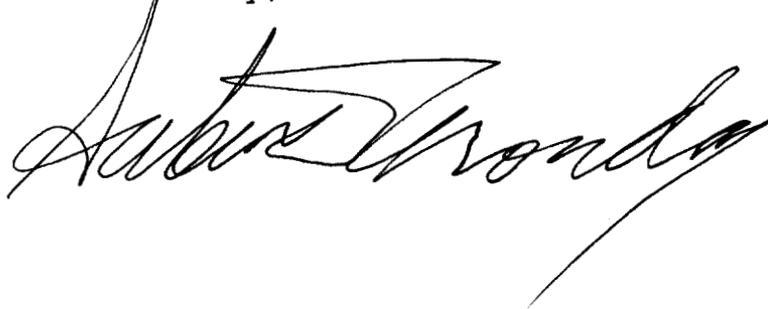

I oppose the proposed OSHA regulation. This is absolutely an unfair, un-American, unreal situation they are putting the cigarette smoker in today.

I don't believe at all that they are detrimental to the health of the smoker or the non-smoker. It seems to me it is a political situation to get rid of the tobacco companies, and being from a tobacco state, I can imagine how many people will be put out of work.

I am a decorated veteran with two bronze stars, the third highest decoration you can have, and I learned to smoke in defending my country in the service in 1943. Therefore, I have been at it for 50 years and I think, in all honesty, that I should have a service connection on my addiction to cigarettes.

We are entitled to some privileges that are not according to the health advocates of this country.

Sincerely,

A handwritten signature in black ink, appearing to read "Aubin D. Monday". The signature is written in a cursive style with a long, sweeping underline that extends to the right.

AUG 7 1994
