Subject Docket ID No. EPA-HQ-OAR-2008-0380

To the EPA,

I believe that our country's ethanol mandates are hurting our economy. I am writing to ask you to grant Governor Rick Perry's request for a waiver of 50% of the Renewable Fuel Standard (RFS) mandate for ethanol produced from grain.

There is no doubt that ethanol production has significantly affected the price of corn, but there also is general consensus that ethanol mandates and subsidies have contributed to skyrocketing food prices in general. For the last 15 years, U.S. food prices have averaged a 2.5% increase in each year. In 2007, U.S. food prices rose 4% - the highest since 1990 - and are expected to rise 6% in 2008. With prices continuing to rise at the grocery store, Americans cannot afford to replace fuel with food.

Please take action immediately and address the many negative consequences that ethanol mandates are inflicting on the U.S.

Thank you,  
Wynema McCullah
