Document: FAA-2008-0977-0002

Air Wisconsin Airlines Corporation

Submitter Information

Name: Richard Rupslauskas

Organization: Air Wisconsin Airlines Corporation

General Comment

Two Comments

1) COST OF COMPLIANCE

There is no discussion of warranty consideration contained within the service bulletin.

2) METHOD OF COMPLIANCE

Aircraft modified per SB 601R-28-053 Original issue were mandated by AD 2006-02-10 to have SB A601R-28-064 accomplished. Air Wisconsin has thirteen aircraft in this configuration. This NPRM should recognize that any aircraft first modified by 601R-28-053 Original issue and then further modified by A601R-28-064 be in compliance with the new directive.
