Subject Docket #EPA-HQ-OAR-2009-0211

Regarding docket #EPA-HQ-OAR-2009-0211

I support an EPA decision to grant a waiver for 15% ethanol. Ethanol is important to our nation's energy security, it helps our environment and is a tremendous boost to our rural economies. A recent report showed that over 136,000 new jobs could be created through this waiver. As someone who works in the ethanol industry, I have seen first-hand the positive economic effects of ethanol and understand how beneficial this is to our nation. Big oil and big food have done their best to damage the reputation of ethanol, but the truth is: ethanol is the right thing

for America. The science overwhelmingly supports the fact that 15% ethanol will work in today's automobiles and I look forward to helping our country by pumping

E15 into my car in the very near future.

Thank you.
