(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

I am Minister and Elder Chicahuac Necahuatl of Ometeotl Ministries and of Mexica - Nican Tlaca decent. Not Latino of Hispanic! Indian - Indigenous!

Good day;

I do not want or *intend to offend* anyone, but the *truth* must be spoken and *taught* on all levels and to all *human beings*. Just as the Jews and their *horrific holocaust* was and is still being taught so must *ours!*

Just

as the *African slave trades* and many other nations *horrific stories* are being told and taught!

Education and Love are the *keys!*

I am wondering if this is the right place to send these words, but these words *need* saying and to be read in *truth* and *open mindedness*.

I, to some extent understand the need and the burden of INS, however I also know the burden and the need of the people (*human beings, not aliens or illegal*).

I still to this day wonder why the human beings of this *stolen continent* (Invaded and stolen since 1492), rightfully called Anahuac must carry the heavy burden of becoming legal in this United States, when in fact these very human beings *are the True descendents, residents of this Stolen Continent*.

I'm speeking of the people of Mexica or Mexico as it called now, the people of Central America which it is called now (dividing the true natives and Indigenous people of this stolen land).

I understand that the way things are now, that without some kind of order, there would be total chaos and flooding of human beings to this land. What I don't understand is why our people are being treated like criminals, criminal's crossing borders, borders that should not BE!

I wonder what would have happened if our ancestors would have asked Chris Columbus and his pirates for their papers before invading and crossing their/our borders of Ocean along with the Spanish conquistadors.

If We would have treated them the way our people are now being treated, treated like criminals when in fact

our people are the ones responsible for most of the American technology today, not to dis-clude the African

and Asians whose blood also has watered this stolen land!

Not to mention our fellow human beings of Native American decent that must live on reservations in conditions

not fit or suitable for any kind of life form.

I feel that people whom must cross bodies of water are immigrants and should file for immigration status. However human beings that were born, and have documented proof of ancestry of this land Anahuac should

not have to be illegal, criminal, and or be treated as such.

To keep down the mass flooding or over population immigration truly needs to be redefined and reformed with

better and much more appropriate means to a solution to peoples of Native - Indigenous decent, the true and legal peoples of this land now being falsely and wrongfully called the United States of America!

What has gone on in all stages of the government in the past is horrendous and monstrous concerning our Indigenous peoples of so called Mexico and Central America. When it was our people whom were brutally attacked and a terrible genocide committed -

(95% of our population killed and or infected with small pox - germ warfare).

Please take these words to your heart, and let that be your guide! Thank you in advance for your time!
